Company Overview

Greetings & Introduction

Working based on the guiding principle of "Direct execution, Sincere Performance," our company was established in December 2008 and is a direct execution company that supplies overall construction and follow-up management in the design, manufacturing, installation, and commissioning of various telecommunications facilities including instrument (measuring) control equipment, process control boards, automatic building controls, and distribution boards.

Our company, founded by skilled personnel, is recognized both by customers and by other excellent companies in the field for its trust and skill, proven through our performance of multiple large-scale projects in a short period of time on the strength of the accumulated technologies and know-how of the CEO and the employees, and we continue to strive to hold the position of a competitive company in the domestic market in the field of control.

Company Name	HYUNSYSMETIC.CO.LTD (HYUN SYSTEM AUTOMATIC.CO.LTD)	CEO	Lee Sangbeom		
Business Registration No.	410-86-47341	Corporation License number	Electric Corporation (Gwangju – 00704) Information and Communication Corporation (No. 610224)		
Initial (Individual) establishment date	December 1, 2008		Instrument (measuring) control units and process control boards for electrical works and information & communication works, Automatic building control, wire & wireless remote control board, distribution board, sales of instrument & measuring control devices, software development & technical services, electricity related engineering		
Date corporation established	December 3, 2011	Business Category			
Business Typ	Construction, manufacturing, wholesales, services businesses				
Contact	061) 373-9963	FAX	061) 393-9964		
Main Business	Instrument (measuring) control device, integrated management system, process control board, automatic building control, TM/TC facility, wire & wireless remote control board, distribution board, plant automatic control system, control board (PANEL) assembling, electric works, information & communication works, instrument works, and electricity related engineering				
Company Location	Head office / 1st factory: 70, Jeonjanonggongdanji 2-gil, Donghwa-myeon, Jangseonggun, Jeollanam-do, Republic of Korea 2nd factory: 31-12, Hyeoksinsandan 5-gil, Wanggok-myeon, Naju-si, Jeollanam-do, Republic of Korea

Major Business Description

Measuring control system business area

- Manual processing measuring system construction (PLC)
- Remote control system construction (TM/TC, RTU)
- Environment information system construction
- · Adopted/Applied areas
 - Water treatment facilities such as purification plants, distributing reservoirs
 - Sewerage system
 - Livestock dirty· waste water treatment facilities

 Mediation pumping station, drain pump station

- Sanitary landfill treatment facilities

Panel assembly & instrument construction business area

- Automated panel assembling business
- Piping and wiring instrument construction for automatic control

Construction area

- Electric works
- Information & communication works
- Instrument construction

Plant automation business area

- Automatic control system construction in steel mills
- Automatic control system construction in the field of automobile and electronics
- Other industrial plan automatic control system construction

Other business areas

 Lighting control systems

Measuring devices

THE BEST COMPANY IN KOREA

Everything related to Automation! Starts from HYUNSYS.

Basic Status

(Certificate of Business Registration)

(Certificate of Factory Registration)

(1st factory tenants confirmation)

(2nd factory tenants confirmation)

(Certificate of venture business)

(ISO 9001 in Korean)

(ISO 9001 in English)

(Certificate for company affiliate research center)

(INNO-BIZ Certificate)

(Certificate of Small & Medium Company)

Licensing Status

(Registration certificate of electrical work)

(Registration certificate of information & communication work)

(Software business license)

(Certificate of Direct Production – Distribution board)

(Certificate of Direct Production – Remote access equipment)

(Certificate of Direct Production – Process control board)

지점생산확인증명시

(Certificate of Direct Production – Automated building control equipment)

THE BEST COMPANY IN KOREA
